## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joel Felber and Charles Macedo on 12/08/2009. The copy of the claims attached was discussed by the Applicant and Examiner.

The Examiner's Amendment copy of the claims is attached. Please see the attached copy of the claims dated today and numbered, 90-103, 107-137, 141-174. Note that independent claims 90, 124, and 158 are amended. Also, note that these claim amendments were provided by the Applicant but added to the record via this Examiner's Amendment.

### ***Allowable Subject Matter***

This Notice of Allowance is in response to the Examiner's Amendment dated 12/8/2009 and the Interview on 11/16/2009 and the Interview on 12/8/2009.

Claims 90-103, 107-137, 141-174 are allowed. These claims were amended by Examiner's Amendment on 12/8/2009.

### ***Examiner's Statement of Reason's for Allowance***

The following is an examiner's statement of reasons for allowance

The 35 USC 103 prior art combination of Boe, Bergh, and AboutFace rendered many relevant features obvious. However, this combination did not render obvious all the features of the Applicant's claims as following. Examiner notes that dependent claim 106 was brought into the independent claim and also that the independent claim was amended so that the features were positively recited.

Bergh discloses the users being able to communicate with each other and AboutFace that user communications or data can include video or pictures of users. More significantly, Boe discloses users providing search description parameters and then being provided additional, relevant, nonsearched information on other user peers. Boe does not disclose a user searching for a first group of users based on parameters (Applicant's first demographic) and then also presenting a second group of users with additional, relevant, unsearched user parameters (Applicant's second demographic) and also where the second user group of relevant, unsearched users does not overlap with the first group of relevant, searched users and also where a relevant ad is shown along with the second demographic information. This feature of presenting a first demographic of searched and relevant users and also presenting a second demographic of unsearched but relevant users is stated in feature "e)" of the independent claim and was termed during prosecution and interviews as the "right turn" feature. This feature of the first demographic not overlapping with the second demographic is termed in the claims as "wherein no person within the first demographic is within the second demographic".

Also, it is the combination of the features in the independent claim that were not

rendered obvious by the prior art and that were found allowable.

Also, Examiner notes that Applicant's page 22 of Applicant's Remarks dated 7/10/09 describes how the "no person within the first demographic is within the second demographic," feature has 112 support and also how this feature can be interpreted.

Also, Examiner notes that seven interviews, both in-person and on the phone, were conducted during prosecution. Examiner notes that an Allowance Conference was conducted on 12/1/2009.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
